

ABSTRAK

Penelitian ini bertujuan untuk menguji pengaruh *good corporate governance* (GCG) dan ukuran perusahaan terhadap kinerja perusahaan. *Good corporate governance* (GCG) diukur dengan skor CGPI, ukuran perusahaan diukur dengan Ln (Total Aset) dan kinerja perusahaan diukur dengan *return on asset* (ROA).

Populasi dalam penelitian ini diperoleh dengan menggunakan metode *purposive sampling* pada perusahaan yang menjadi peserta *corporate governance perception index* (CGPI) selama periode 2012-2016 dan berdasarkan kriteria yang telah ditentukan maka diperoleh sampel sebanyak 70 perusahaan *go public* yang terdaftar di Bursa Efek Indonesia (BEI) dan memperoleh Skor CGPI. Metode analisis yang digunakan adalah analisis regresi linier berganda dengan alat bantu aplikasi SPSS (*Statistical Product and Service Solution*).

Berdasarkan hasil analisis dan pengujian hipotesis menunjukkan *good corporate governance* (GCG) berpengaruh signifikan positif terhadap *return on asset* (ROA), sedangkan ukuran perusahaan tidak berpengaruh terhadap *return on asset* (ROA).

Kata kunci: *good corporate governance*, ukuran perusahaan, *return on asset*

ABSTRACT

This research aims to examine the influence of good corporate governance (GCG) and company size on company performance. Good corporate governance (GCG) is measured by the CGPI score, firm size measured by Ln (Total Assets) and firm performance measured by return on assets (ROA).

The population in this research is obtained by using purposive sampling method at company which become the participant of corporate governance perception index (CGPI) during period 2012-2016 and based on predetermined criteria, then get a sample of 70 companies go public which is listed in the Indonesia Stock Exchange (IDX) and earn CGPI Score. The analysis method used is multiple linear regression analysis with using SPSS (Statistical Product and Service Solution) application tool.

Based on the results of hypothesis analysis and testing shows good corporate governance (GCG) has a positive significant influence on the return on assets (ROA), while the firm size does not influenced the return on asset (ROA).

Keywords: good corporate governance, company size and return on assets
