

ABSTRAK

Penelitian ini bertujuan untuk menguji pengaruh komite audit, umur perusahaan, opini audit, ukuran KAP, profitabilitas, solvabilitas terhadap *audit delay* pada perusahaan *property and real estate* yang terdaftar di Bursa Efek Indonesia.

Populasi penelitian ini diperoleh dengan menggunakan metode *purposive sampling* pada perusahaan *property and real estate* yang terdaftar di BEI selama periode 2012-2016. Berdasarkan kriteria yang telah ditentukan maka diperoleh sampel sebanyak 41 perusahaan. Metode analisis yang digunakan adalah analisis regresi linier berganda dengan alat bantu aplikasi SPSS.

Hasil penelitian menunjukkan bahwa komite audit tidak berpengaruh terhadap *audit delay* karena komite audit hanya bersifat sebagai pengawas. Umur Perusahaan tidak berpengaruh terhadap *audit delay* karena perusahaan yang masih muda juga ingin membentuk reputasi yang baik. Opini audit berpengaruh terhadap *audit delay* karena perusahaan yang menerima opini *unqualified opinion audit delay* cenderung lebih pendek. Ukuran KAP berpengaruh terhadap *audit delay* karena KAP *The Big Four* jauh lebih baik dibandingkan dengan KAP *Non Big Four*. Profitabilitas berpengaruh terhadap *audit delay* karena perusahaan yang memperoleh laba cenderung akan lebih tepat waktu. Solvabilitas berpengaruh terhadap *audit delay* karena semakin banyak hutang yang diterima maka semakin panjang *audit delay* perusahaan. Secara simultan, semua faktor mempengaruhi terjadinya *audit delay*.

Kata kunci: *audit delay*, komite audit, opini audit, profitabilitas

ABSTRACT

This research aims to test the influence of the audit committee, company age, audit opinion, KAP size, profitability, solvability to the audit delay at property and real estate company which is listed in the Indonesia Stock Exchange.

The population in this research was taken by using purposive sampling method to the property and real estate company which is listed in the IDX during the 2012-2016 period. Based on the criteria which has been determined then obtained a sample as many as 41 companies. The analysis method that been used is multiple linier regression with using SPSS application.

The research results shows that the audit committee has no influence to the audit delay because of the audit committee are supervise. The company age has no influence to the audit delay because of the younger company want to make good reputation. Audit opinion influenced to the audit delay because the company which has the opinion of unqualified opinion audit delay is shorter. KAP size has influence to the audit delay because the big four KAP is more better then KAP non big four. Profitability has influence to audit delay because if has a lot of debt more longer the audit delay of the company. Simultaniously, those all factors has influence to the audit delay.
