ABSTRAK

Penelitian ini bertujuan untuk menguji pengaruh kinerja keuangan terhadap harga saham pada perusahaan sektor pertambangan yang terdaftar di Bursa Efek Indonesia. Jenis data pada penelitian ini merupakan data sekunder berupa laporan keuangan perusahaan. Berdasarkan teknik *purposive sampling*, diperoleh sampel sebanyak 12 perusahaan sektor pertambangan selama periode pengamatan tahun 2014-2018. Variabel yang digunakan dalam penelitian ini yaitu *Return On Equity, Net Profit Margin, Debt to Equity Ratio* dan *Price Earning Ratio* sebagai variabel independen. Metode analisis yang digunakan yaitu analisis regresi linier berganda yang diolah dengan aplikasi SPSS versi 22. Berdasarkan hasil penelitian menunjukkan bahwa variabel *Return On Equity* berpengaruh positif dan signifikan terhadap harga saham. Variabel *Net profit Margin* dan *Price Earning Ratio* berpengaruh positif dan tidak signifikan terhadap harga saham. Sedangkan variabel *Debt to Equity Ratio* berpengaruh negatif dan tidak signfikan terhadap harga saham.

Kata kunci: kinerja keuangan, *return on equity, net profit margin, debt to equity ratio, price earning ratio,* harga saham.

ABSTRACT

This research aimed to examine the effect of financial performance on stock price of mining companies which were listed on Indonesia Stock Exchange. While, the prospect of financial performance reflected its achievement and company's financial condition. This could affect the supply and demand of stock price. The research was secondary in form of company's financial statement. Moreover, the data collection technique used purposive sampling, in which the sample was based on criteria given. In line with, there were 12 mining companies as sample with observation year period 2014-2018. Meanwhile, there were variables which used, namely Return On Equity, Net Profit Margin, Debt to Equity Ratio and Price Earnings Ratio as independent variable. Whereas, stock price was dependent variable. In addition, the data analysis technique used multiple linear regression with SPSS 22. Based on the research result, it conclude Return On Equity had positive and significant effect on stock price. In contrast, Net Profit Margin, Debt to Equity Ratio and Price Earning Ratio had insignificant effect on stock price.
