Harga Saham

ABSTRACT

This research aimed to find out, analyze, and examine the effect of Return On Investment, Earning Per Share, and Dividend Per Share on the stock price of Banking companies that were listed on the Indonesia Stock Exchange. The independent variables were Return On Investment, Earning Per Share, and Dividend Per Share. While the dependent variable was the stock price. Furthermore, the research was quantitative. The data collection technique used purposive sampling, in which the sample was based on the criteria given. In line with that, there were 10 Banking companies as the sample. Additionally, the data analysis technique used multiple linear regression with SPSS 26.

Based on the t-test, it concluded that Return On Investment had a significantly positive effect on the stock price. On the other hand, Earning Per Share had a negative and insignificant effect on the stock price. In contrast, Dividend Per Share had a significantly positive effect on the stock price of banking companies that were listed on the Indonesia Stock Exchange.

Keywords : *Return On Investment, Earning Per Share, Dividend Per Share, Stock Price*
