Dear Professor Dr. Triyonowati WATI,

You have uploaded your paper with title The Moderating Effect of Corporate Governance on The Relationship of Environmental Uncertainty and Capital Structure and ID: 5107-1634 for possible publication in the Journal: **WSEAS** Transactions on Business and Economics

Your paper will be examined by the Associate Editor according the Quality Control 1: <https://wseas.com/qualitycontrol.php>
If the paper passes the Quality Control 1, the Associate Editor will send it to the appropriate Reviewers.

Paper Submission Terms: Our collaboration is based on some Terms
See them here: <https://wseas.com/terms.php>

Note that Requests for paper withdrawal are reviewed by the Editor-in-Chief, who may accept or reject them.
Paper withdrawal is not allowed after the review process has been completed.
<https://wseas.com/terms.php>

Finally as our Journals are Open Access, the publication is subject to Article Processing Charges (Publication Fees). See them: <https://wseas.com/fees.php>

You have also committed that this paper has not been published in any other conference or journal and you or your university will pay the fees for our Open Access Journals (see below).

Fees: 927 EUR for the two Journals:

WSEAS Trans on Environment and Development, **WSEAS** Trans on Business and Economics, Indexed in Scopus, INSPEC (IET, former IEE), ProQuest, EBSCO, GoogleScholar, Crossref, SemanticScholar, Resurchify impact factor,

Dear Dr. Triyonowati WATI,

Thank you for your registration.

The reviewers' comments are attached to this email, as well as the Turnitin Report.

Please revise your paper accordingly, **log in to your account, click on the pencil icon next to your paper and upload your final version** (overwrite the old version with the new one) for publication, until **March 15, 2022**.

Paper should be written according to the journal's paper format; <https://wseas.com/format.php>

In addition, please fill in and return to me via email the attached "CERTIFICATION.docx" which certifies the evaluation and review process.

ATTENTION!!!!

Please note that the Turnitin outcome gave a **55% in similarity** index whereas the **20% and 10%** of it is related to specific sources. For this reason, your revised version will pass a second evaluation round where **we expect the above percentage to be minimized.**

The similarity needs to be definitely below 25% .

The parts that are already published in the bibliography should be rewritten or excluded from the manuscript.

We remain at your disposal,

Best Regards

Maria Georgieva

Dear Dr. Triyonowati Wati,

We would like to inform you that the revised version of your paper ID: **5107-1634**, went through a plagiarism check via Turnitin and the percentage is **still high** as you may see in the attached file.

The similarity index should be below **30%**.

The parts that are already published in the bibliography should be rewritten or excluded from the manuscript.

Dear Dr. Triyonowati WATI,

One Reviewer was not satisfied with your revised version 5107-1634. See the comments below:

Reviewer A

The paper should be carefully proofread to remove spelling, grammatical and other mistakes. Many errors still exist. The layout of the tables is very bad. Figures should be mentioned in more detail in the text. Research Method part seems very inadequate.

Please, send us your re-revised version of the article, as soon as possible.

Reply by email only to review@wseas.com

The Nexus Between Reliability of Environmental Uncertainty and Capital Structure: Corporate Commitment as Moderator

TRİYONOWATI WATI, MARIA GEORGIEVA, FIKRI LAKSIPATI, JENYUNDA
*Department of Management, Faculty of Social Sciences, Universitas STIESIA (Stiesia) Surabaya,
Jember, 66132, Indonesia
*Department of Accounting, Faculty of Business Administration, Universitas STIESIA (Stiesia) Surabaya, Indonesia

Abstract - Changes in the internal environment often represent the uncertainty. This study aims to find the relationship between the level of environmental uncertainty and the level of reliability of environmental uncertainty. The research method used is quantitative research using regression analysis.
