

## ABSTRACT

*This research aimed to examine the effect of Good Corporate, company's age, and leverage on the profit management of Food and Beverage companies which were listed on The Indonesia Stock Exchange during 2017-2020.*

*The research was quantitative. Moreover, the population was all Food and Beverage companies which were listed on Indonesia Stock Exchange during 2017-2020. Furthermore, the data collection technique used purposive sampling. In Ine with that there were 15 companies as the sample. Therefore, the total data of samples were 40 that fulfilled the criteria. Additionally, the data analysis technique used multiple linear regression.*

*Based on the conclusions, the suggestions that could be put forward in this research were as follows: 1. For further research, the population needed to be widened, such as all Food and Beverage companies listed on IDX, 2. For further research, the variables needed to be added outside of this Research; such as firm size, interest rate, and several measurement variables.*

**Keywords:** *Good Corporate, Company's Age, Leverage, Profit Management*
