

## INTISARI

Penelitian ini dilakukan dengan tujuan untuk menguji pengaruh *Earning Per Share*, *Price Earning Ratio* dan *Price to Book Value* terhadap harga saham pada perusahaan *food and beverages* yang terdaftar di Bursa Efek Indonesia.

Populasi dalam penelitian ini diperoleh dengan metode *purposive sampling* pada perusahaan *food and beverages* yang terdaftar di Bursa Efek Indonesia selama periode 2013-2016 dan berdasarkan kriteria yang telah ditentukan maka diperoleh sampel sebanyak 12 perusahaan *food and beverages*. Metode analisis yang digunakan dalam penelitian ini adalah analisis regresi linier berganda dengan alat bantu aplikasi SPSS versi 23.

Hasil penelitian secara simultan (uji F) menunjukkan bahwa *Earning Per Share*, *Price Earning Ratio* dan *Price to Book Value* berpengaruh terhadap harga saham, sehingga dapat disimpulkan bahwa model layak digunakan. Sedangkan hasil secara parsial (uji t) menunjukkan bahwa *Earning Per Share*, *Price Earning Ratio* dan *Price to Book Value* berpengaruh positif dan signifikan terhadap harga saham. Variabel *Earning Per Share* memiliki pengaruh dominan terhadap harga saham.

**Kata Kunci:** *Earning Per Share*, *Price Earning Ratio*, *Price to Book Value*, harga saham.

## **ABSTRACT**

This research is aimed to examine the influence of earning per share, price earnings ratio and price to book value to the stock price of food and beverages companies which are listed in Indonesia Stock Exchange.

The population in this research is all food and beverages companies which are listed in Indonesia Stock Exchange in 2013-2016 periods has been selected by using purposive sampling method and based on the predetermined criteria, 12 food and beverages companies have been selected as samples. The analysis method has been conducted by using multiple linear regressions analysis and the instrument of the SPSS 23 version application.

The result of simultaneous test (F test) shows that earning per share, price earnings ratio and price to book value give influence to the stock price, therefore it can be concluded that the models are feasible to be used. Meanwhile, the result of partial test (t test) shows that earning per share, price earnings ratio and price to book value give significant and positive influence to the stock price. The earning per share variable gives dominant influence to the stock price.

**Keywords:** Earning per share, price earnings ratio, price to book value, stock price.
